

Press Release

The Huntington Beach Republican Assembly (HBRA) applauds the performance of the Huntington Beach Mayor, City Council, Police Department and all City agencies during the recent George Floyd protests in the city.

The Police Department in particular handled the situation in an exemplary manner, protecting life and property while also protecting the right of American citizens to peaceably assemble and petition their government for a redress of grievances.

This was not the case in other cities in this state and across the nation where local government failed in their most basic responsibility, so we do not take the excellent service we have received here for granted.

In fact, we see a new disturbing pattern of certain local governments giving a green light to anarchist to the hurt of their law-abiding citizens while at the same time punishing those law-abiding citizens for simply trying to earn a living.

HBRA recognizes the critical role local government plays in times like these to maintain islands of stability and civility in the face of those demanding ill-considered, violent and revolutionary change. We are grateful to see our Police and City Government applying a steady hand to meet this challenge.

Par Garcia - President
Huntington Beach Republican Assembly
